● EXPERIENCE

- **Front-end Engineer** May 2022 - Feb 2025
Catch+Release, CA - Remote
 - Built and optimized highly responsive applications using TypeScript, React, GraphQL, and CSS in a fast-paced Agile environment. Refactored legacy codebases to improve maintainability.
 - Established a design system, creating reusable UI components to ensure consistency and efficiency across the application.
 - Collaborated closely with designers, backend engineers, and cross-functional teams to sprint planning, code reviews, and technical discussions to maintain high development standards and scalability.
- **Ad Product Developer** Nov 2016 - May 2022
Padsquad, NY - Remote
 - Lead and assist Product Owners in designing and defining new products.
 - Develop features for applications using HTML5, CSS3, Javascript, Restful API, React, Vue, Unit Testing.
 - Review the work of other engineers (Code Review).
 - Write code that is of high quality and consistent with coding standards.
 - Collaborate with the team on defining guidelines and good practices.
 - Serve as a member of a Scrum team, actively participating in planning sessions, daily stand-ups, and team meetings.
- **Front End Developer Engineer** Nov 2015 - Nov 2016
Claro, DR
 - Create new features to make the application custom for their business.
 - Translate design to pixel perfect front end code.
 - Build responsive and interactive micro-sites on HTML5 / CSS3 and Javascript.
 - Collaborate with creative and development teams to develop cross-product design solutions.
 - Design and build interactive prototypes for applications that can be tested with customers.
- **EDUCATION**
 - **Bachelor's degree, Graphic Design**
APEC University, DR
2013 - 2016
 - **Associate's degree, Multimedia**
Las Americas Institute of Technology (ITLA), DR
2010 - 2012
